Cos'è un museo
? - 

Un museo è un posto speciale .
-  -  

Nel museo ci sono quadri , statue , sculture
  -   ,  , 

e oggetti importanti .
+  

A L'Aquila c'è un museo molto
  -   

bello .

Il Museo si chiama MUNDA - Museo nazionale
    -  

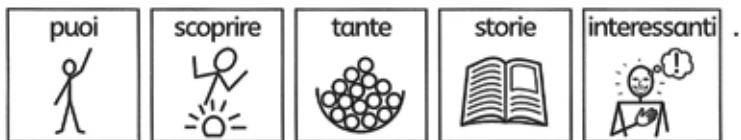

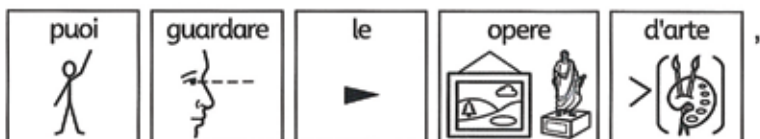

d'Abruzzo .

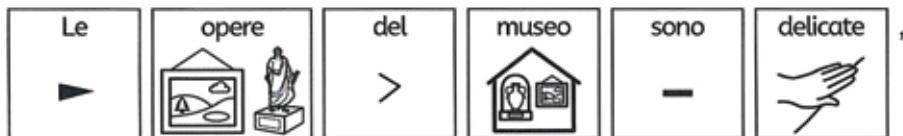

Le persone che lavorano al MUNDA

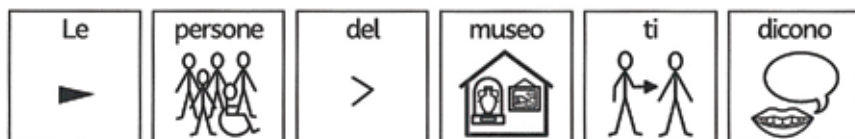

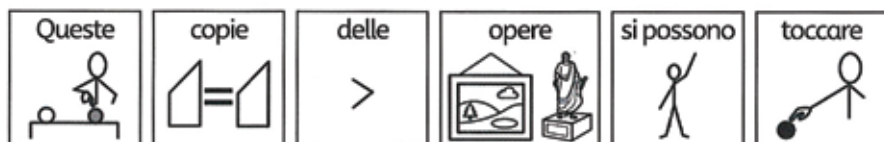

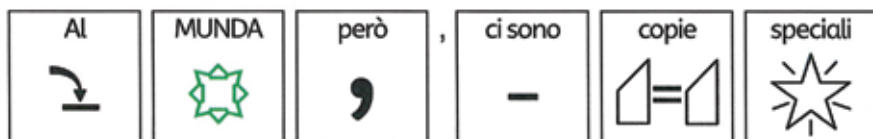

proteggono e riparano le opere d'arte

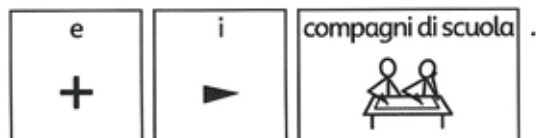

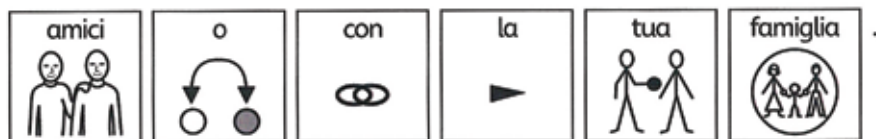

Le persone del museo raccontano anche

la storia delle opere

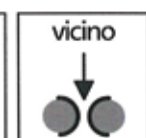

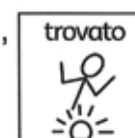

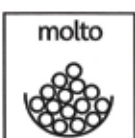

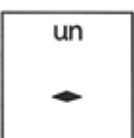

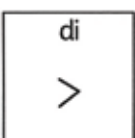

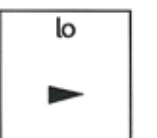

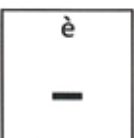

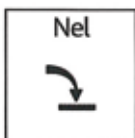

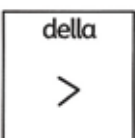

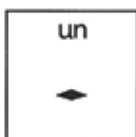

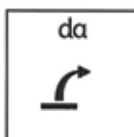

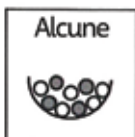

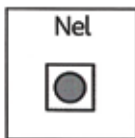

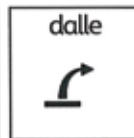

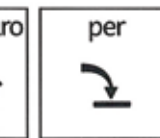

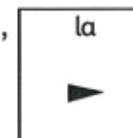

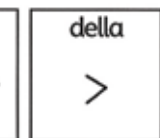

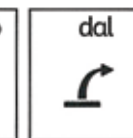

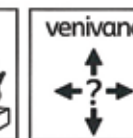

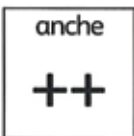

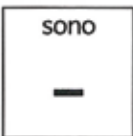

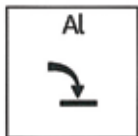

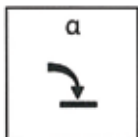

Il 

Tanto tempo fa  , in  un  paese  vicino 

L'Aquila  , alcuni  operai  stavano scavando  .

Gli  operai  cercavano  l'  acqua  nel 

terreno  e  hanno  trovato  uno  scheletro 

gigante  .

Lo  scheletro  era  lo  scheletro  di 

un  mammut  .

Il mammut era un animale

molto grande, simile ad un elefante

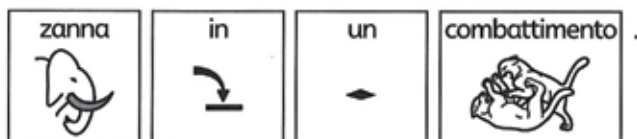

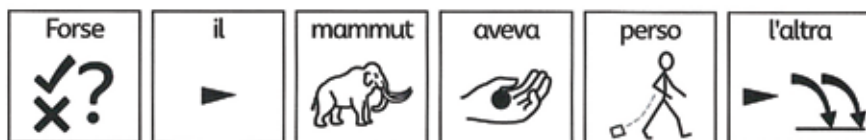

Il mammut viveva in Abruzzo più

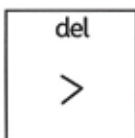

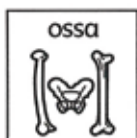

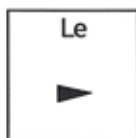

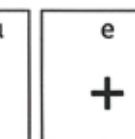

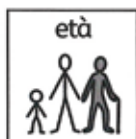

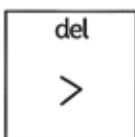

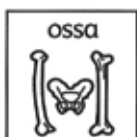

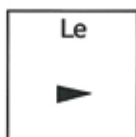

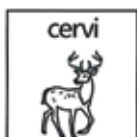

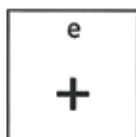

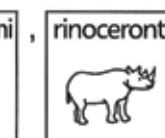

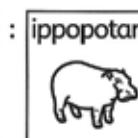

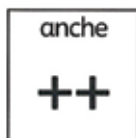

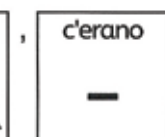

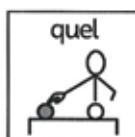

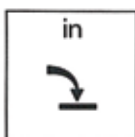

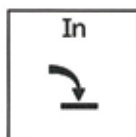

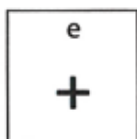

di un milione di anni fa

Il mammut trovato dagli operai era

un maschio, aveva 55 anni e

pesava come 140 persone!

e +	sono state -	pulite 	con cura 	.
